Heat Map by Standard Type

Description: This report displays performance at the Student Expectation level – organized by standard type (Readiness, Supporting, Process, and non-tested). The Curriculum Heat Map helps identify areas of growth, maintenance, or decline at the Student Expectation level.

Standard Types:
- Readiness (green)
- Supporting (yellow)
- Process (blue)
- Not tested on STAAR (white) – for local data only

Checkpoints:
- One or more assessments may be selected for each Checkpoint

Cell Shading – Levels of Strength:
Purple shading is used to indicate student performance data equal to or above 65%.
