Leadership Report Card – Math

Description: This 1-page report provides summary-level data from lead4ward TEKS Clusters, or unique bundles of standards for each content area and grade/course. The Leadership Report Card allows leaders to analyze individual and/or aggregated STAAR and local assessments across three data Checkpoints. It helps identify areas of focus in the curriculum for teacher professional development and/or student intervention.

Tools to Know (Process Standards) Analysis:
- Includes aggregated data for SEs 1(A), 1(B), and 1(C) – all grades/subjects
- Helps with determining students’ ability to access content or get started

Checkpoints:
- One or more assessments may be selected for each Checkpoint

Ways to Show (Process Standards) Analysis:
- Includes aggregated data for SEs 1(D), 1(E), 1(F), and 1(G) – all grades/subjects
- Helps with determining students’ ability to demonstrate, communicate, and apply concepts and content

TEKS Clusters:
- Reflective of all big concepts or topics across the grade level (similar to most Units of Instruction)
- Details for aligned SEs and subclusters are located on corresponding Student Learning Reports.

Quintile Analysis: [activated September 2018]
- Organizes test scores from all selected assessments into Quintiles (5 equal groups) ... by Checkpoint
- Data displayed reflects the Avg. % Correct for all test scores in each Quintile.
