Leadership Report Card – Science

Description: This 1-page report provides summary-level data from lead4ward TEKS Clusters, or unique bundles of standards for each content area and grade/course. The Leadership Report Card allows leaders to analyze individual and/or aggregated STAAR and local assessments across three data Checkpoints. It helps identify areas of focus in the curriculum for teacher professional development and/or student intervention.

Tools to Know (Process Standards) Analysis:
- Helps with determining students’ ability to access content or get started
- SEs included in Tools to Know listed on Process Standards Student Learning Report

Checkpoints:
- One or more assessments may be selected for each Checkpoint

Ways to Show (Process Standards) Analysis:
- Helps with determining students’ ability to demonstrate, communicate, and apply concepts and content
- SEs included in Ways to Show listed on Process Standards Teacher Learning Report

TEKS Clusters:
- Reflective of all big concepts or topics across the grade level (similar to most Units of Instruction)
- Details for aligned SEs and subclusters are located on corresponding Teacher Learning Reports.

Quintile Analysis:
- Organizes test scores from all selected assessments into Quintiles (5 equal groups) ... by Checkpoint
- Data displayed reflects the Avg. % Correct for all test scores in each Quintile.
