Description: This report provides a custom frequency distribution showing the number of items on all selected assessments by Checkpoint. The Source Data Report enhances the reliability of the data analysis process by recognizing the overall number of items tested at the Student Expectation (SE) and TEKS Cluster or Subcluster levels.

**Frequency Distribution by Standard Type:**
- Item count data is provided at the SE level

**Checkpoints:**
- Item counts are determined by selected assessments for each Checkpoint

**Frequency Distribution by TEKS Cluster:**
- Item count data is provided at the TEKS Cluster or subcluster level
- Corresponds to the visual display of the Leadership Report Card

**Item Counts:**
- Includes total number of items for aligned SEs for all selected assessments
