

wednesday: work on the plan

Let's begin to explore how we can engage our students remotely and begin our plan.

Principals/Leadership Teams

- **Schedule virtual faculty meeting** using video-conferencing platform
 - Review the [starting points document](#)
 - Instructional framework
 - Guiding principles
 - Develop and review the [master schedule](#)
- **Overview the campus school@home** [campus website]
- **Review [Parent Quickstart Guide](#)**

Teachers

- **Review** your plans from the first week of school
 - How could we use those same activities in a remote learning setting?
 - What would we adapt?
 - Make sure experiences are:
 - Focused
 - Fun
 - Family Friendly
- **Create meet-up groups**
 - Organize students into groups of 5-6 (organize by friend groups when possible).
 - Assign a time for each group to connect.
- **Plan the first week**
 - Build a Google slide ([elementary](#) | [secondary](#)) with a video to explain the expectations for your content area
 - Consider ways students can post their work in a collaborative environment.
 - Send your slide to your team leader or principal.
