

thursday: try it out!

Before we engage students, let's practice with each other. Let's try it out.

Principals/Leadership Teams

- Compile content area slides into one stack
- Post content to website
- Teacher leaders create video-conferencing meeting

Teachers

- **Host a video-conferencing meet-up for each grade level** (practice what we would do with students)
 - Review how to move between speaker view and gallery view
 - Check in with each person
 - Use the Google slide stack to share expectations for each content area
 - Review content-area support meetings (learning labs) and how to access them (video-conferencing platform, phone, email)
- **Set up collaborative workspace**
 - Determine where we will collect student work
 - Determine how we will provide feedback
- **Email reminder to parents about Friday family meet-ups**
 - Video-conferencing platform link to parents with assigned/suggested times
 - Connection options (computer, phone, telephone)
