

General Requirements			
Identify Language Proficiency	Linguistically Accommodated Instruction	Content-Based Second Language Acquisition	Intensive Second Language Acquisition Instruction
(1) identify the student's English language proficiency levels in the domains of listening, speaking, reading, and writing in accordance with the proficiency level descriptors for the pre-production, beginning, intermediate, high intermediate and advanced levels	(2) provide instruction in the knowledge and skills of the foundation and enrichment curriculum in a manner that is linguistically accommodated (communicated, sequenced, and scaffolded) commensurate with the student's levels of English language proficiency to ensure that the student learns the knowledge and skills in the required curriculum	(3) provide content-based instruction including the cross-curricular second language acquisition essential knowledge and skills in a manner that is linguistically accommodated to help the student acquire English language proficiency	(4) provide intensive and ongoing foundational second language acquisition instruction to emergent bilingual (EB) students in Kindergarten to Grade 12 who are at the pre-production, beginning, or intermediate level of English language proficiency in listening, speaking, reading, or writing as determined by the state's English language proficiency assessment system. These EB students require focused, targeted, and systematic second language acquisition instruction to provide them with the foundation of English language necessary to support content-based instruction and accelerated learning of English

Introduction	
English Language Proficiency Standards	(1) The English language proficiency standards (ELPS) outline student expectations and proficiency level descriptors for EB students in English. The ELPS are organized across four language domains: listening, speaking, reading, and writing.
Language Acquisition	(2) Language acquisition is a complex process that consists of several interrelated components, including phonetics, phonology, semantics, syntax, morphology, and pragmatics. As students develop proficiency in these language structures, they are able to make connections between their primary language and English.
Classroom Context for Language	(3) Classroom contexts foster social and academic registers, which are types of language appropriate for a situation or setting, to support language proficiency. Informal (social) language consists of English needed for students to effectively interact, exchange ideas, and engage in various settings and contexts. Formal (academic) language consists of oral and written language used to build knowledge, participate in content-specific discourse, and process complex academic material found in formal school settings and interactions.
Development of Language Skills	(4) The progression of skills in the four language domains are developed simultaneously and can be divided into two categories: receptive skills and expressive skills. Listening and reading are the receptive (input) skills. Students' development in receptive skills is necessary for comprehension and attainment of the English language and content. Speaking and writing are the expressive (output) skills. Students' ability to express and share their personal ideas and content knowledge allow teachers the opportunity to check for understanding and adjust instruction. Effective content-based language instruction involves engaging EB students in scaffolded opportunities to listen, speak, read, and write at their current levels of proficiency while gradually increasing linguistic complexity.
Culturally Sustaining Practices	(5) In order for EB students to be successful, educators must create an environment that welcomes and encourages students to leverage their unique cultural and linguistic experiences as they develop English language skills and learn academic content. Educators must cultivate an approach that integrates students' and their families' funds of knowledge into the classroom instructional practices. Culturally and linguistically sustaining practices leverage and celebrate students' cultural heritage and backgrounds, while elevating their cultural and linguistic identities. Teaching and learning cognates which connect both (or multiple) languages can also construct bridges between languages and increase confidence as English language acquisition progresses.
ELPS Student Expectations & Proficiency Level Descriptors	(6) The ELPS student expectations are the knowledge and skills students must demonstrate. They indicate what students should know and be able to do in order to meet academic content standards. Proficiency level descriptors describe behaviors EB students exhibit across five proficiency levels as they acquire English. EB students may exhibit different proficiency levels within and across the domains of listening, speaking, reading, and writing.
Asset-Based Approach	(7) The ELPS demonstrate an asset-based approach to address the affective, linguistic, and cognitive needs of EB students as follows: <ul style="list-style-type: none"> (A) acknowledge and leverage the existing funds of knowledge students possess including linguistic repertoire, cultural heritage, and background knowledge (B) demonstrate targeted and intentional academic language skills to ensure content-area teachers are able to accurately evaluate the abilities of EB students and scaffold toward the increasingly complex English that students hear, speak, and are expected to read and write (C) provide an exact and incremental measure of the stages of English language development and proficiency with attention to the fact that EB students at all levels of proficiency can engage in cognitively demanding tasks with appropriate language support to master the required essential knowledge and skills. Provide an exact and incremental measure of the stages of English language acquisition with attention to the fact that EB students at all levels of proficiency can engage in cognitively demanding tasks and master the required essential knowledge and skills with appropriate language support

Cross-Curricular English Language Acquisition Student Expectations

Listening

Application	Instructional Focus
<p>(1) <i>The EB student listens to a variety of speakers, including teachers, peers, and multimedia, to gain an increasing level of comprehension in all content areas.</i></p> <p><i>The EB student may be at the pre-production, beginning, intermediate, high intermediate, or advanced proficiency levels in listening.</i></p>	<ul style="list-style-type: none"> (A) distinguish sounds and intonation patterns by responding orally, in writing, or with gestures (B) demonstrate an understanding of content-area vocabulary when heard during formal and informal classroom interactions by responding with gestures or images, orally, or in writing (C) follow oral directions with accuracy (D) use context to construct the meaning of descriptive language, words with multiple meanings, register, or figurative language such as idiomatic expressions heard during formal and informal classroom interactions (E) demonstrate listening comprehension from information presented orally during formal and informal classroom interactions by recalling, retelling, responding, or asking for clarification or additional details (F) derive meaning from a variety of auditory multimedia sources to build and reinforce concepts and language acquisition

Speaking

Application	Instructional Focus
<p>(2) <i>The EB student speaks using a variety of language structures for a variety of purposes with an awareness of different language registers (formal/informal) using vocabulary with increasing accuracy and fluency in all content areas.</i></p> <p><i>The EB student may be at the pre-production, beginning, intermediate, high intermediate, or advanced proficiency level of English language acquisition in speaking.</i></p>	<ul style="list-style-type: none"> (A) produce sounds of newly acquired vocabulary such as long and short vowels, silent letters, and consonant clusters to pronounce words with accuracy (B) speak using content-area vocabulary during formal and informal classroom interactions to demonstrate acquisition of new words and high-frequency words (C) speak using a variety of language and grammatical structures, sentence lengths and types, and connecting words (D) speak using appropriate register to convey a message during formal and informal classroom interactions with accuracy and fluency (E) narrate, describe, or explain information or persuade orally with increasing specificity and detail during formal and informal classroom interactions (F) restate, ask questions about, or respond to information during formal and informal classroom interactions

Reading

Application	Instructional Focus
<p>(3) <i>The EB student reads a variety of texts for different purposes with an increasing level of comprehension in all content areas.</i></p> <p><i>The EB student may be at the pre-production, beginning, intermediate, high intermediate, or advanced proficiency levels of English language acquisition in reading.</i></p> <p><i>For Kindergarten and Grade 1, certain student expectations apply to text read aloud for students not yet at the stage of decoding written text.</i></p>	<ul style="list-style-type: none"> (A) demonstrate awareness of print concepts and directionality of reading as left to right and top to bottom (B) decode words using relationships between sounds and letters (C) use high-frequency words, cognates, and content-area vocabulary to comprehend written classroom materials (D) use context to construct the meaning of figurative language such as idiomatic expressions, descriptive language, and words with multiple meanings to comprehend classroom materials (E) use pre-reading strategies, including previewing text features, connecting to prior knowledge, organizing ideas, and making predictions, to develop comprehension (F) derive meaning from and demonstrate comprehension of content-area texts using visual, contextual, and linguistic supports (G) demonstrate reading comprehension of content-area texts by making connections, retelling, or responding to questions (H) read with fluency and demonstrate comprehension of content-area text

Writing	
Application	Instructional Focus
<p>(4) <i>The EB student writes using a variety of language structures with increasing accuracy to effectively address a variety of purposes (formal and informal) and audiences in all content areas.</i></p> <p><i>The EB student may be at the pre-production, beginning, intermediate, high intermediate, or advanced proficiency levels of English language acquisition in writing.</i></p> <p><i>For Kindergarten and Grade 1, certain student expectations do not apply until the student has reached the proficiency level of generating original written text using a standard writing system.</i></p>	<ul style="list-style-type: none"> (A) apply relationships between sounds and letters of the English language to represent sounds when writing (B) spell words following conventional spelling patterns and rules (C) write using high-frequency words and content-area vocabulary (D) write using a variety of grade-appropriate sentence lengths and types and connecting words (E) write formal or informal text using conventions such as capitalization and punctuation and grammatical structures such as subject-verb agreement and verb tense (F) write to narrate, describe, explain, respond, or persuade, with detail in the content areas

Proficiency Level Descriptors
<p>(8) The proficiency level descriptors are organized into general proficiency level descriptors and content-area proficiency level descriptors. General proficiency level descriptors are descriptions of a broad scope of student behaviors that can be observed in a variety of educational settings and across content areas. Content-area proficiency level descriptors describe student behaviors and language associated with discipline-specific learning in English language arts and reading, mathematics, science, and social studies.</p>

Ways to Show
<p>The following five proficiency levels describe student’s progress in English language acquisition:</p> <ul style="list-style-type: none"> (A) Pre-production. The pre-production level, also known as the silent period, is the early stage of English language acquisition when the receptive language is developing. Students develop comprehension when highly scaffolded instruction and linguistic support are provided. Student responses are mostly non-verbal. (B) Beginning. The beginning level is characterized by speech emergence (expressive language) using one-word or two-to-three-word phrases. Students at this level require highly scaffolded instruction and linguistic support. Students at this level begin to consistently use present tense verbs and repeat keywords and familiar phrases when engaging in formal and informal interactions. (C) Intermediate. The intermediate level is characterized by the ability to use receptive and expressive language with demonstrated literal comprehension. Students at this level need moderately scaffolded instruction and linguistic support. Additional visual and linguistic support is needed to understand unfamiliar or abstract concepts such as figurative language, humor, and cultural or societal references. Students at this level begin to consistently use short phrases and simple sentences or ask short questions to demonstrate comprehension during formal and informal interactions. (D) High intermediate. Students at the high intermediate level begin to consistently use a variety of sentence types, express opinions, share thoughts, and ask for clarification. Students at this level have an increased level of literal and abstract comprehension. They may need minimal scaffolded instruction and linguistic support to engage in formal and informal classroom interactions. (E) Advanced. The advanced level is characterized by the ability of students to engage in formal and informal classroom interactions with little to no linguistic support. Students at this level engage in discourse using content-area vocabulary and a variety of grammatical structures with increasing accuracy.
